

**WORK INJURY AND AUTOMOBILE INJURY NOTICE
AND
PURPOSE OF AN ADJUSTMENT DISCLOSURE**

By signing below, I acknowledge that I am aware that Ackerman Chiropractic and Wellness and Dr. Drew K. Ackerman do not provide care for work related injuries, automobile accident injuries, or personal injuries. I also acknowledge that I must inform this office if I am in an automobile or work related injury and must seek care at my medical doctor's office or another healthcare provider for injuries or conditions sustained. I also am completely aware that Ackerman Chiropractic and Wellness and Dr. Drew K. Ackerman will not bill, submit claims, nor prepare or submit reports for any automobile, personal or work related injury. I also understand that I am responsible to pay each visit myself at the time of service or through a wellness or package plan.

Further, I understand that chiropractic care is given to correct misalignments of the spine called SUBLUXATIONS. One of the benefits of a chiropractic adjustment is that you MAY feel better but this is not the GOAL of an adjustment. The goal of an adjustment is to correct SUBLUXATIONS, thereby removing the interference to the nervous system allowing the body to heal itself. As a result, WE DO NOT TREAT PAIN OR DISEASE; we remove subluxations so the body is able to function properly and be better enabled to heal itself.
